Experiment – 1

Date – 22-01-2023 – Sunday

The Main Page :

The Experiment number one made on Sunday - 22nd Jan of 2023

Here we are gonna display the Picture of the Electronic Gadgets used in Modern times

The Pictures of the Gadgets ↓

From the above Picture of the Gadgets click any of the 3 Devices(Mobile, Keyboard, or Controller) to view its Information.

The Keyboard Page :

A keyboard is for putting information including letters, words and numbers into your computer. You press the individual buttons on the keyboard when you type. The number keys across the top of the keyboard are also found on the right of the keyboard. The letter keys are in the centre of the keyboard.

The keys on your keyboard can be divided into several groups based on function :
  I-Typing (alphanumeric) keys. These keys include the same letter, number, punctuation, and symbol keys found on a traditional typewriter.
  II-keyboard is used for recepticle for anger and frustration techniques.
  III-key board is used for Seating, most notably for those of the feline persuasion.
  IV-And many more...

The Controller Page :

Hey, hi we have found that you've clicked somthing from the Gadget picture.

So, you've clicked on to an Controller to know about it's Information.

The Controller ↓

A controller, in a computing context, is a hardware device or a software program that manages or directs the flow of data between two entities. In computing, controllers may be cards, microchips or separate hardware devices for the control of a peripheral device.

Advantages of Controlling in the Organisation - Need Importance :
   I-Control ensures optimum utilisation of resources.
   II-Control minimises deviations.
   III-Control motivates employees.
   IV-And many more...

The Mobile Page :
